Welcome to NextMD, our Patient Portal

We are glad to be able to offer secure email communication with our office through NextMD/NextGen Patient Portal for patients age 18 and older.

The types of communication presently available to patients are:

- ❖ renewal of ongoing medications
- ❖ medication questions
- ❖ test results
- ❖ non-urgent questions for a provider
- ❖ scheduling a future appointment (2-3 months ahead)

When appropriate, our providers will email you lab results, other test results, reminders to make appointments or to have testing done. When we contact you, you will receive an email letting you know that there is a message waiting for you on the Patient Portal. You may use the link in the email to go to the patient portal, or go to <https://www.nextmd.com>.

When you want to contact us, go to the same link as above, sign in and choose from the types of messages listed. If you have a need to reply to a message that has been sent by a provider, please do not use the “reply” option, as it does not go through our monitoring system to insure a prompt response. You may, instead, just start a new email message to your provider.

It is important for you to realize that NextMD is NOT for emergency or urgent communications. We will make every effort to respond within 72 hours during business days (Monday through Friday, not including holidays).

A patient must be age 18 to have access to a NextMD/Patient Portal account. At the present time, the email system is not designed to properly allow a parent to have access to a child’s chart.

NextMD/Patient Portal Email Account

To sign up for participation in NextMD/Patient Portal:

Patient Name

(NextMD/Patient Portal email account holder)

Date of Birth

Email address printed

Patient Name Signature

(NextMD/Patient Portal email account holder)

Date

To decline participation in NextMD/Patient Portal:

() I do not wish to participate in NextMD/Patient Portal at this time. I understand that I can sign up at any time in the future.
